NOT FOR DISTRIBUTION TO U.S. NEWS SERVICES
OR FOR DISSEMINATION IN THE UNITED STATES

**IMPACT SILVER ANNOUNCES C\$7.0 MILLION
NON-BROKERED PRIVATE PLACEMENT FINANCING**

IMPACT Silver Corp. (TSX-V: IPT) (OTC PINK: ISVLF) (FSE: IKL) ("IMPACT" or the "Company") is pleased to announce a non-brokered private placement of 25,925,926 units of the Company (the "Units") at a price of C\$0.27 per Unit (the "Offering Price") for gross proceeds of up to C\$7,000,000 (the "Offering").

Each Unit will be comprised of one common share of the Company (a "Common Share") and one whole Common Share purchase warrant (each a "Warrant"). Each Warrant shall be exercisable to acquire one Common Share (a "Warrant Share") at a price of C\$0.35 per Warrant Share for a period of 24 months from the closing of the Offering.

The Company intends to use the net proceeds from the Offering for exploration, development and general corporate purposes.

The securities to be issued under the Offering will be offered by way of private placement in each of the provinces of Canada and such other jurisdictions as may be determined by the Company, in each case, pursuant to applicable exemptions from the prospectus requirements under applicable securities laws.

The Offering is scheduled to close on or about the week of April 10, 2023 and is subject to certain conditions including, but not limited to, the receipt of all necessary approvals including the approval of the TSX Venture Exchange (the "Exchange"). The Units to be issued under the Offering will have a hold period of four months and one day from Closing. The Company may pay finder's fees or commissions on a portion of the Offering, subject to compliance with the policies of the Exchange and applicable securities legislation.

A director of the Company is expected to participate in the Offering. This participation by an insider in the Offering constitutes a related-party transaction as defined under Multilateral Instrument 61-101 -- *Protection of Minority Security Holders in Special Transactions*. However, the Company considers such participation would be exempt from the formal valuation and

IMPACT SILVER CORP

minority shareholder approval requirements of MI 61-101, as the fair market value of the Units subscribed for by the insider, and the consideration for the Units paid by such insider, would not exceed 25 per cent of the Company's market capitalization.

The securities described herein have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act"), or any state securities laws, and accordingly, may not be offered or sold within the United States except in compliance with the registration requirements of the U.S. Securities Act and applicable state securities requirements or pursuant to exemptions therefrom. This press release does not constitute an offer to sell or a solicitation to buy any securities in any jurisdiction.

ABOUT IMPACT SILVER

IMPACT Silver Corp. (TSXV:IPT) is a successful producer-explorer with two mining projects in Mexico.

Royal Mines of Zacualpan Silver-Gold District: IMPACT owns 100% of the 211 km² Zacualpan project where four underground silver mines and one open pit mine feed the central 500 tpd Guadalupe processing plant. To the south, the Capire Project includes a 200 tpd processing pilot plant adjacent to an open pit silver mine with an NI 43-101 inferred mineral resource of over 4.5 million oz silver, 48 million lbs zinc and 21 million lbs lead (see IMPACT news release dated January 18, 2016 for details and QP statement, and footnote⁴ for report reference); Company engineers are reviewing Capire for a potential restart of operations. Over the past 17 years, IMPACT has placed multiple zones into commercial production and produced over 12 million ounces of silver, generating revenues over \$241 million.

Plomosas Zinc-Lead-Silver District: IMPACT signed a purchase / sale agreement with Consolidated Zinc Limited (ASX: CZL) of Australia to purchase the Plomosas property and mining operations for US\$6 million (cash and shares) plus a 12% NPI (net profit interest) and a third party 1% NSR royalty. Plomosas is a high-grade zinc-lead-silver producer with exceptional exploration potential. Upon closing of the transaction, IMPACT plans to upgrade the mill and mine with the aim to recommence operations in the near term followed by plans for expanding operations. Exploration potential at Plomosas is exceptional with only 600m of the 6 kilometre long structure assessed plus other exploration targets including untested copper-gold targets. Regionally, Plomosas lies in the same mineral belt as some of the largest carbonate replacement deposits in the world.

Forward-Looking and Cautionary Statements

This IMPACT News Release may contain certain "forward-looking" statements and information relating to IMPACT that is based on the beliefs of IMPACT management, as well as assumptions made by and information currently available to IMPACT management. All statements, other than statements of historical facts, included herein, including, without limitation, statements relating to future silver prices, interpretation of drill results, future work plans, the timing of closing of the Offering, proceeds received and use of funds, the potential of the Company's projects, and potential and plans for the Plomosas project, are forward looking statements. Forward-looking information is often, but not always, identified by the use of words such as "seek", "anticipate", "plan", "continue", "planned", "expect", "project", "predict", "potential", "targeting", "intends", "believe", "potential", and similar expressions, or describes a "goal", or variation of such words and phrases or state that certain actions, events or results "may", "should", "could", "would", "might" or "will" be taken, occur or be achieved. Such statements include, but are not limited to, statements with respect to the expected use of proceeds of the Private Placement.

Such forward-looking information involves known and unknown risks and assumptions, including with respect to, without limitations, exploration and development risks, expenditure and financing requirements, title matters, operating hazards, metal prices, political and economic factors, competitive factors, general economic conditions, relationships with vendors and strategic partners, governmental regulation and supervision, seasonality, technological change, industry practices, and one-time events. There are no assurances the Company will close the acquisition of the Plomosas project. Should any one or more risks or uncertainties materialize or change, or should any underlying assumptions prove incorrect, actual results and forward-looking statements may vary materially from those described herein. IMPACT does not assume the obligation to update any forward-looking statement, except as required by law.

The Company's decision to place a mine into production, expand a mine, make other production related decisions or otherwise carry out mining and processing operations, is largely based on internal non-public Company data and reports based on exploration, development and mining work by the Company's geologists and engineers. The results of this work are evident in the discovery and building of multiple mines for the Company and in the track record of mineral production and financial returns of the Company since 2006. Under NI 43-101 the Company is required to disclose that it has not based its production decisions on NI 43-101 compliant mineral resource or reserve estimates, preliminary economic assessments or feasibility studies, and historically such projects have increased uncertainty and risk of failure.
