**IMPACT SILVER AMENDS C\$2.7MILLION
NON-BROKERED PRIVATE PLACEMENT FINANCING TO
\$3.5 MILLION**

IMPACT Silver Corp. (TSX-V: IPT) (OTC PINK: ISVLF) (FSE: IKL) ("IMPACT" or the "Company") is pleased to announce it has upsized the non-brokered private placement financing, pursuant to the listed issuer financing exemption (LIFE) of National Instrument 45-106 - Prospectus Exemptions, originally for proceeds of up to \$2.7 million to \$3.5 million due to increased investor demand. Company will issue up to 20,588,235 units at a price of \$0.17 per Unit (the "Offering Price").

Each unit will consist of one common share of the company and one half of one common share purchase warrant, each warrant entitling the holder thereof to acquire one share of the Company at a price of 22 cents per share for a period of 24 months from the closing date of the Offering.

The Company intends to use the proceeds from the offering to accelerate exploration activity at the recently acquired Plomosas high-grade zinc-lead-silver property located in Chihuahua, Mexico, as well as for working capital requirements and other general corporate purposes including legal and financing fees related to the offering. Exploration activities include sampling, target definition, and drilling with the intention of expanding the existing JORC mineral resource at Plomosas, where only 600m of the 6-kilometre-long structure has been tested. The region is known for hosting some of the largest carbonate replacement deposits in the world.

The securities to be issued under the Offering will be offered by way of private placement in each of the provinces of Canada and such other jurisdictions as may be determined by the Company, in each case, pursuant to applicable exemptions from the prospectus requirements under applicable securities laws.

Subject to compliance with applicable regulatory requirements and in accordance with National

IMPACT SILVER CORP

Instrument 45-106 - *Prospectus Exemptions* ("**NI 45-106**"), the Offering is being made pursuant to the listed issuer financing exemption under Part 5A of NI 45-106 (the "**Listed Issuer Financing Exemption**"). The securities offered under the Listed Issuer Financing Exemption will not be subject to a hold period in accordance with applicable Canadian securities laws. There is an offering document (the "**Offering Document**") related to the Offering that can be accessed under the Company's profile at www.sedarplus.ca and on the Company's website at impactsilver.com. Prospective investors should read this Offering Document before making an investment decision.

The Offering is scheduled to close on or about the week of December 18th, 2023 and is subject to certain conditions including, but not limited to, the receipt of all necessary approvals including the approval of the TSX Venture Exchange (the "Exchange"). The Company may pay finder's fees or commissions on a portion of the Offering, subject to compliance with the policies of the Exchange and applicable securities legislation.

The securities described herein have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act"), or any state securities laws, and accordingly, may not be offered or sold within the United States or the US persons except in compliance with the registration requirements of the U.S. Securities Act and applicable state securities requirements or pursuant to exemptions therefrom. This press release does not constitute an offer to sell or a solicitation to buy any securities in any jurisdiction.

ABOUT IMPACT SILVER

IMPACT Silver Corp. (TSXV:IPT) is a successful producer-explorer with two mining projects in Mexico.

Royal Mines of Zacualpan Silver-Gold District: IMPACT owns 100% of the 211 km² Zacualpan project where four underground silver mines and one open pit mine feed the central 500 tpd Guadalupe processing plant. To the south, the Capire Project includes a 200 tpd processing pilot plant adjacent to an open pit silver mine with an NI 43-101 inferred mineral resource of over 4.5 million oz silver, 48 million lbs zinc and 21 million lbs lead (see IMPACT news release dated January 18, 2016 for details and QP statement); Company engineers are reviewing Capire for a potential restart of operations. Over the past 17 years, IMPACT has placed multiple zones into commercial production and produced over 12 million ounces of silver, generating revenues over \$256 million.

Plomosas Zinc-Lead-Silver District: Plomosas is a high-grade zinc producer in northern Mexico with exceptional exploration upside potential. The Company recently re-commenced operations and has plans for expansion in 2024. Exploration potential at Plomosas is exceptional with only 600m of the 6km-long structure having been explored to date. This is in addition to

IMPACT SILVER CORP

other exploration targets on the 3,019-hectare property including untested copper-gold targets with indications of high-grade material from surface. Regionally, Plomosas lies in the same mineral belt as some of the largest carbonate replacement deposits in the world.

Forward-Looking and Cautionary Statements

This IMPACT News Release may contain certain "forward-looking" statements and information relating to IMPACT that is based on the beliefs of IMPACT management, as well as assumptions made by and information currently available to IMPACT management. All statements, other than statements of historical facts, included herein, including, without limitation, statements relating to future silver prices, interpretation of drill results, future work plans, the timing of closing of the Offering, proceeds received and use of funds, the potential of the Company's projects, and potential and plans for the Plomosas project, are forward looking statements. Forward-looking information is often, but not always, identified by the use of words such as "seek", "anticipate", "plan", "continue", "planned", "expect", "project", "predict", "potential", "targeting", "intends", "believe", "potential", and similar expressions, or describes a "goal", or variation of such words and phrases or state that certain actions, events or results "may", "should", "could", "would", "might" or "will" be taken, occur or be achieved. There is no assurance that (i) the Company will be able to complete the Offering on the terms set out above, or at all, or (ii) that the proceeds of the Offering will be expended as contemplated.

Such forward-looking information involves known and unknown risks and assumptions, including with respect to, without limitations, exploration and development risks, expenditure and financing requirements, title matters, operating hazards, metal prices, political and economic factors, competitive factors, general economic conditions, relationships with vendors and strategic partners, governmental regulation and supervision, seasonality, technological change, industry practices, and one-time events. Should any one or more risks or uncertainties materialize or change, or should any underlying assumptions prove incorrect, actual results and forward-looking statements may vary materially from those described herein. IMPACT does not assume the obligation to update any forward-looking statement, except as required by law.

The Company's decision to place a mine into production, expand a mine, make other production related decisions or otherwise carry out mining and processing operations, is largely based on internal non-public Company data and reports based on exploration, development and mining work by the Company's geologists and engineers. The results of this work are evident in the discovery and building of multiple mines for the Company and in the track record of mineral production and financial returns of the Company since 2006. Under NI 43-101 the Company is required to disclose that it has not based its production decisions on NI 43-101 compliant mineral resource or reserve estimates,

IMPACT SILVER CORP

preliminary economic assessments or feasibility studies, and historically such projects have increased uncertainty and risk of failure.
